

# ENHANCED SMART CHARGEBACK REPRESENTMENT™

---

REVENUE RECOVERY

**Smart Chargeback Representment™**, brings together the best of Chargeback Gurus' expertise and advanced technology to create a powerful solution for recovering lost revenue. With rich AI insights, flexible testing as well as advanced analytics, this solution gives merchants the support they need to boost recovery rates and improve operational flow. Smart Chargeback Representment™ not only recovers lost revenue but also helps merchants take a stronger, more efficient approach to chargeback management.

## Key Features of Enhanced Smart Prevention Alerts™

### A/B Testing

A/B testing manager with campaign-style design allows multiple templates per case, fine-tuning Custom Dispute Packages for optimal results.

### Dispute Workflow Enhancement

Custom Dispute Package creation is streamlined with template assignment, customization, and evidence management for efficient representment.

### Quality Assurance Hub

Integrated audit workflows and configurable sampling for enhanced quality assurance and representment success.

### AI Insights

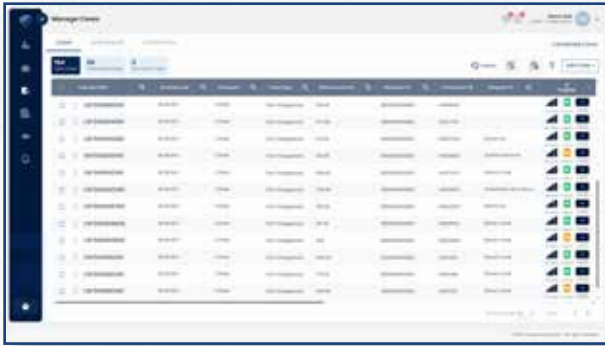

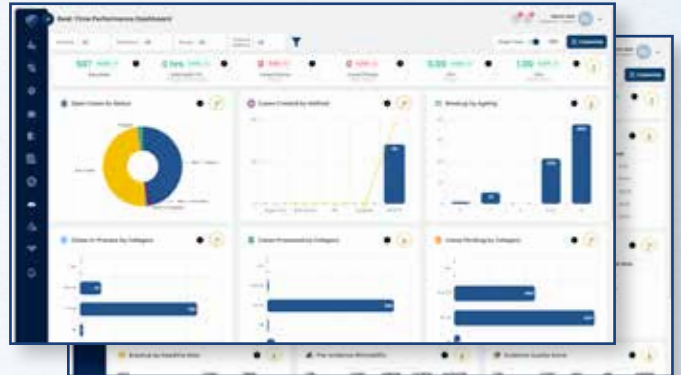

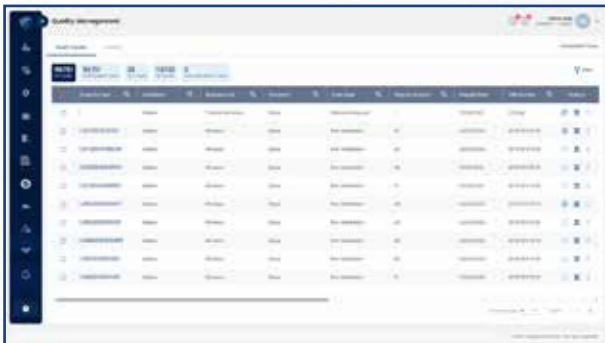

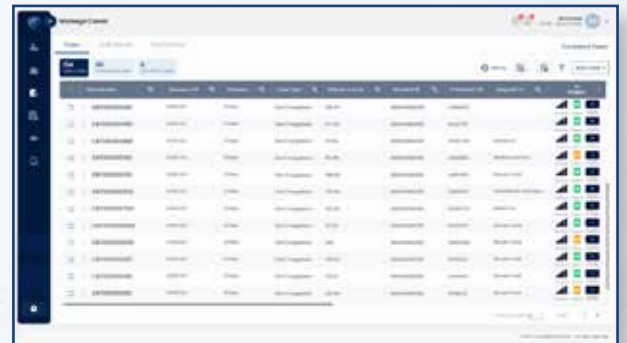

Seamlessly integrates multi-generational AI capabilities of FPRONE™ into user workflows, maximizing efficiency beyond standalone models.

### Real-Time Performance Dashboard

Provides 40+ widgets for in-depth analysis, revealing vulnerabilities and root causes for proactive loss reduction.

### Case Creation Through Seamless Integration

Effortless case creation and smart template selection with integrated tools for streamlined efficiency.
